Maximize Revenue at Every Location

Increase sales and average transaction value with a premium grab-and-go experience, optimized product assortment, and flexible cashless payment options. Data-driven insights help operators identify top-performing products, and improve merchandising strategies.

Operate with AI-Driven Visibility

True AI product detection, live sales data, remote diagnostics, abnormal order alerts deliver total control across every location. AI-powered reporting provides visibility into product movement, inventory trends, and customer purchasing behavior. Operators can optimize inventory levels, improve product mix decisions, and reduce stockouts through actionable business intelligence.

A Premium Customer Experience

A real-time shopping cart and checkout, interactive LED handle, and large advertising screen create a seamless, modern experience.

Built to Last. Backed for the Long Term.

Durable, field-tested hardware backed by a 5-year warranty simplifies service, sourcing and long-term ownership.
